To whom it may concern:

My name is Robert Panichpakdee and I am contacting you in regards to the gallery manager position. I managed JanKossen Contemporary in Chelsea for a year and six months doing sales, management, and art handling. I am currently freelancing as a registrar and gallery manager at Ruiz-Healy Art in the Upper East Side. I have a MFA from The New School, Parsons School of Design in Fine Arts. For my undergraduate degree, I graduated from California State University Long Beach with a double major in Art History, with a double specialty in 18-20th century French art and Modern Art, in Drawing and Painting, with a third degree in French.

My responsibilities are varied, from management, logistics, and working with consultants and buyers to installation and packing of art work. I was in charge of the logistics of shipping and receiving the work, as well as keeping digital and physical in/out receipts from shippers. I've used many different art data base programs such as ArtBase, ITgallery, and Art Cloud. I've worked multiple artfairs, including Art Miami Volta, and am comfortable with those responsibilities as well.

I was am responsible for the online and physical mailing press for each upcoming show, as well as updating the online Artsy and Artnet accounts, as well as the social media accounts. I also work with the storage companies to make sure the inventory is organised and accounted for. Along with installing the work for each show, I also do in-home installation for clients in the city.

I am fluent in English, Thai, and French.

Best regards,

Robert Panichpakdee
